an index to publications by number, title, author, and subject
1912 - May 1964
This index to publications of the Children's Bureau arranged by number, title, author, and subject covers the years 1912 to May 1964. The Bureau has long felt the need for such a listing in answering inquiries coming in from professional workers, librarians, and scholars interested in a bibliographical accounting of these publications.

Obviously most of these publications, except for those of recent vintage, are out of print and obtainable only in libraries. But for anyone with a historical interest in child health and welfare, this listing will be of great value. Since the edition of this listing is extremely limited, it can be obtained only by a direct request to the Children's Bureau.
CHILDREN'S BUREAU PUBLICATIONS

an index to publications by number, title, author, and subject

1912-May 1964
